Reports

Facility Report

[Facility Personnel Report](#)

The Facility Personnel Report allows users to run and print a report which includes facility details including location, status, shifts and services. It also provides a detailed list of all Personnel associated with the selected facility including full name, position, UPIN, email, and contact information for selected in Scope facilities.

[Missing Forms Report](#)

This report identifies CMS 2728 and CMS 2746 forms that have not been completed. This is based on the patient treatment information.

[Saved Status Report](#)

This report identifies all forms that are in a 'Saved' status.

30 Days	“Under Investigation” Notifications and Accretions

Notification Alerts

- **Identity Notification**

Identifies differences in a patient's identity (i.e., first name, last name, date of birth, gender, Medicare Claim Number, and Social Security Number).

- **Event Notification**

Identifies any treatment differences in modality, or REMIS has received notice that the patient has died.

You can take the following actions on Notifications:

- **ACCEPT**

You agree with the patient data provided by the external source. Patient identifier data in CROWNWeb will be automatically updated, but treatment data must be manually changed.

- **REJECT**

After Research, you do not agree with the notification. No changes are made in CROWNWeb.

- **INVESTIGATE**

Informs other users the notification is “under investigation” by you.

- **ESCALATE**

If the patient is not part of your facility or you require Network assistance in making a determination, this option reassigns the notification to the network.

Accretion Alerts

- **Accretion**

Identifies a patient who exists in CMS' Renal Management Information System (REMIS), but is not assigned to a facility in CROWNWeb.

You can take the following actions on Accretions:

- **ACCEPT**

You agree with the external data source and will admit the patient to your facility in CROWNWeb.

- **REJECT**

You don't agree with the accretion. You've researched and the patient is not ESRD. No changes will be made in CROWNWeb.

- **INVESTIGATE**

Informs other users the accretion is "under investigation" by you.

- **ESCALATE**

If the patient is not in your facility. This option escalates the accretion to your network so that they can reassign it to the correct facility.
