ICD- 10 Around the Corner

On October 1, 2015, the U.S. Department of Health and Human Services (HHS) will adopt the tenth revision of the International Classification of Diseases (ICD) to be followed by all health care providers, health plans, and health care clearinghouses that are covered by the Health Insurance Portability Accountability Act of 1996 (HIPAA). The ninth revision of the ICD codes is currently used on field 15 of the CMS-2728 form to indicate a patient's Primary Cause of End Stage Renal Disease (ESRD). When completing the CMS-2728 form on or after October 1, 2015, users will notice that CROWNWeb will automatically present a list of Primary Causes of End Stage Renal Disease that reflects the ICD-10 codes. CROWNWeb is programmed to accept only ICD-10 code entries for all admissions beginning October 1, 2015; all CMS-2728 forms processed before this date must reflect ICD-9 codes.

CROWNWeb 4.8 Launch – Are You Ready?

Sometimes it helps us to get ready for things if we know about them in advance. Here are some previews of coming attractions that will be in the CROWNWeb 4.8 release when it occurs on October 10, 2015. CROWNWeb 4.8 will include three enhancements, infrastructure upgrades, and overall system updates. Examples of 4.8 updates include:

Area	Description
Pain Assessment and Follow-Up Reporting Measure	Will allow facilities to report data and receive scores on Pain Assessment and Follow-Up, and Screening for Clinical Depression and Follow-Up reporting measures in ESRD QIP.
Removal of QIP Attestations	Removal of Anemia Management and Mineral Metabolism attestation reporting in CROWNWeb.
ICH CAHPS Attestation for PY 2017	Maintain functionality that allows facilities to complete ICH CAHPS attestations in CROWNWeb

2015-2016 CROWNWeb Clinical Closure Dates

Clinical Month(s)	Date of Closure for Clinical Submissions
June 2015	August 31, 2015 at 11:59 p.m. ET
July 2015	September 30, 2015 at 11:59 p.m. ET
August 2015	October 31, 2015 at 11:59 p.m. ET
September 2015	November 30, 2015 at 11:59 p.m. ET
October 2015	December 31, 2015 at 11:59 p.m. ET

Saved CMS-2728 Forms

Did you know that when completing a CMS-2728 form in CROWNWeb, it is not received by CMS until you have collected and entered all the necessary information, and clicked the “Submit” button? Currently, there are over 9,000 CMS-2728 forms in a “Saved” status waiting to be reviewed and submitted. Of the 9,000 forms in a “Saved” status, some are complete and just need to be submitted, while others may require additional research and necessary signatures for submission. CMS-2728 forms must be completed in CROWNWeb within 45 days of the start of dialysis.

Need help determining if your facility has CMS forms in a “Saved” status? **The Reports screen in CROWNWeb includes a “Saved Status Report” as well as a “Missing Forms Report” that are designed to assist you with working towards completing necessary forms within a timely manner.**

Facility Report

Facility Personnel Report

The Facility Personnel Report allows users to run and print a report which includes facility details including location, status, shifts and services. It also provides a detailed list of all Personnel associated with the selected facility including full name, position, UPIN, email, and contact information for selected in Scope facilities.

Missing Forms Report

This report identifies CMS 2728 and CMS 2746 forms that have not been completed. This is based on the patient treatment information.

Saved Status Report

This report identifies all forms that are in a 'Saved' status.

Just the FAQs Ma'am

Have you ever needed an answer about CROWNWeb in a hurry? Well, we have a list of the most frequently asked questions and the answers that you need on the mycrownweb.org web site. To access our FAQs database, click [here](#). The FAQs are categorized by books. If you click on a book, it will open to display all of the related FAQs in that topic. Click on the Index tab to list the keywords in alphabetic order, or click on the Search tab to enter a word associated with your question.
