## CMS-2728 Submission Rates

*By: Janis Grady, Program Lead for CROWNWeb Communications, Division of Quality Measures, Center for Clinical Standards and Quality (CCSQ)*

CMS would like to congratulate Network 8 personnel and their facilities! With 17% of CMS-2728 Forms submitted within 10 days of the patient's start, Network 8 has the highest submission rate in CROWNWeb! CMS is proud that all Networks and Facilities have started to support more timely 2728 submission rates. With your continued commitment, we will assuredly meet our EQRS goals for CMS-2728 Forms in 2016 and beyond. If you missed last month's Newsletter containing the EQRS Data Quality Goals, it can be found at [www.mycrownweb.org](http://www.mycrownweb.org) under the News and Updates Section.

Overall, a National reduction of 1402 saved forms (resulting in a 14% decrease) was observed in April 2016. CMS appreciates your hardwork, and your efforts have not gone unnoticed.
